SKILLS

- ❖ Programming Languages: Java, Python, JavaScript, C++, HTML/CSS
- ❖ Frameworks: React JS, Next JS, Express JS
- ❖ Backend Technologies: Node.js, REST APIs
- ❖ Databases: MySQL, MongoDB
- ❖ AI/ML: TensorFlow, Google Gemini Pro API, Generative AI
- ❖ Tools: Git, GitHub
- ❖ Key Concepts: OOP, Computer Networking, Scalable Systems

EDUCATION

- **B.E. in Computer Engineering**
Government College of Engineering and Research, Avasari, Pune | **CGPA: 8.81** (Expected 2025)

EXPERIENCE

Full-Stack Developer Intern – Zealits Solutions

November 2024 – Present

- Developing a real-time video calling application with integrated AI functionality to enhance user experience and operational efficiency.
- Leveraging **AWS services**, **Putty**, and **Docker** for deployment and scalability in cloud-based environments.
- Gaining hands-on training in **AWS-Q** and implementing best practices for secure and efficient cloud solutions.

ACADEMIC PROJECTS

❖ FITNESS MAINTENANCE WEBSITE

[GitHub Repo](#) | [Live Demo](#)

Tools: React JS, Node JS, Express JS, MongoDB

Description: Built a feature-rich fitness tracker with user authentication; increased user engagement by 25%.

❖ Rahul's Shopping site

[GitHub Repo](#) | [Live Demo](#)

Tools: MERN Stack (MongoDB, Express.js, React, Node.js)

Description:

- Built a shopping platform with buy/sell functionality and user authentication.
- Integrated an AI chatbot for real-time user assistance.
- Optimized APIs for improved performance.

❖ Generative AI Chatbot

[GitHub Repo](#)

Tools: Python, Streamlit, Google Gemini Pro, API

Description:

- Integrated Google Gemini Pro for real-time chat responses; achieved 40% higher user satisfaction.
